Software Subscription Economy

Subscription Economy Continues to Fuel Software Industry Growth

According to The Subscription Economy Index report, the subscription economy has grown by a remarkable 435 percent over the last decade.

According to McKinsey & Company, social-commerce market is expected to reach \$2 trillion by 2025.

After 1.7% growth in 2023, Consumer Technology Association (CTA)[®] forecasts that consumer spending on software and services will rise 3.7% to \$157 billion in 2024.

Key Imperatives for growth in Software Industry

← Priorities →

← Business Outcomes →
